EXAMINER'S AMENDMENT

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the issue fee.

The application has been amended as follows:

Claims 1,2,4-25,27-49 and 53-55 have been renumbered as claims 1-13,16,14,15,20-27,17,18,28,19,29-46,48,47,49 and 50, respectively.

REASONS FOR ALLOWANCE

The following is an examiner's statement of reasons for allowance: prior art does not explicitly teach the further limitation of selecting diagonal elements or off-diagonal elements of the sub-block processing matrices to reduce inter-symbol interference or crosstalk on the digital signal streams. Prior art further does not teach transforming sub blocks from a block of signal streams which includes less digital signal stream than a block and wherein a block includes enough samples to exceed joint filter time sample spans of the digital signals streams and inverse transforming the sub blocks.

Furthermore, prior art does not teach transforming sub blocks from a block of signal streams which includes less digital signal stream than a block and wherein the block includes enough digital signal stream samples that transforming and processing blocks of the plurality of digital signal stream does not introduce distortion and inverse transforming the sub blocks.
